- API Integration
- MVC
- Searching Skills
- CRUD Operations

SOFTWARE

- VS code, VS , Brackets , NetBeans
- Git and GitHub
- Trello
- Figma

INTERPERSONAL SKILLS

- Effective Communication
- Knowledge Sharing
- Punctuality
- Self-learning

MY PROJECTS

- **Jewelry Store**:
  Developed an attractive and user-friendly Jewelry Store website utilizing HTML, CSS, JavaScript, React, and JSON server. Implemented essential features such as user registration, landing page, product catalog, cart functionality, streamlined checkout process, and a purchase history section for enhanced user experience in online shopping.
- **FRIENDIFY**:
  Developed and launched FRIENDIFY, a social media platform, leveraging Firebase and React technologies. Implemented user authentication, efficient post management, and interactive commenting functionalities. Ensured a seamless user experience by designing and developing a fully responsive website.
- **SADAKA**:
  As a member of the winning team in Orange Hackathon 2023, successfully created a website called "SADAKA" using HTML and CSS within a 6-hour timeframe. The website aimed to connect volunteers with opportunities to provide essential services and support to individuals in need during Ramadan, including food, shelter, and other resources.
